---

Ma'am,

I do recall that the LOGCAP folks asked for topological maps... do we have them for the subject areas near Site Monitor? If these have already flowed up, then this is OBE.

Yours,

(b)

(b) (6) ,

Is this map still needed? If so, do you want the dimension in feet from the hospital electrical substation to site-monitor and from Montana to site-monitor along the existing roads cutting through the parcel or along the boundary of the parcel to the areas?

Thank you,

(b) (6)

Pls add two 75 acre rectangles within the EA area in close proximity to site-monitor just for reference. Also, provide the dimension in feet of all the sides of the EA parcel, from the hospital electrical substation to site-monitor and from Montana to site-monitor.

Thx.

They were asking for the portion of the parcel that is covered by the EA. They don't want to plan something in a location that they come to find out is not within the perimeter of the footprint offered.

Are they requesting the gps coordinates for the entire parcel 2 boundary or specific locations from the field visit?

For the DPW team, if possible, could we have someone available with keys for the buildings inside site monitor for tomorrow's site visit?

Also a reminder for the GPS plots for site two, as requested by LOGCAP
